

Why it's IMPORTANT to offer the BEST version of yourself...!

Many people have "discovered" the world of the Neuro-sociological Profiles of the different models of Right-handed, left-handed, right-handed and left-handed. Many of you have identified your model of a basic Neuro-sociological Profile with Feminine or Masculine Principle of right-handed, left-handed, right-handed and left-handed women. Some of you have discovered that you are upset left-handers and left-handers with the consequences that this implies. These same observations apply to ALL members of your family, your children, friends, employees, your politicians, your doctor, the receptionist, the airplane pilot, the many strangers in the subway, the tramp who begs for a few pennies to eat, these billions of human beings who "walk" on this little green ball that we call The Earth.

Each of us, without exception, is subjected to and manifests to perfection the implacable unconscious will of the Project-meaning of transgenerational, cultural, religious and multidimensional archetypes that orients and models our sexualization and the perfect expression of a Neuro-sociological Profile that represents what we are and this, **for better or for worse.**

The BEST VERSION OF YOURSELF manifests itself when you express to the best of your ability "**Your Basic Neuro-Sociological Profile**", either in **the Feminine Principle or in the Masculine Principle**. You will gradually "find **your Right Place** as a human being" in this reality and manifest in the next sequence more Balance, Harmony and Righteousness... If you persist in your approach, the notion of Autonomy and Responsibility will be important criteria for you... Always in the continuity of offering **the Best of YOURSELF**, you will feel Joy, Peace, Love, Freedom and Radiate Your DIVINE INNER LIGHT (Shahon).

"Other versions of oneself" manifest themselves as a "shift or amplification" of our "opposite subtone" to the Basic Female or Male Profile, which manifests states of "overstress" and "distress" psychological, physical, chemical, menopause, andropause, energetic and sociological. These other versions of oneself are the result of triggers of multiple origins: alcohol, drugs of an inhibiting or stimulating nature, certain inappropriate therapies, certain music, certain films, pornography, certain incense, certain perfumes, certain foods, unmanageable emotional shocks (- or +), inappropriate neurospatial position, certain inappropriate physical activities. Its triggers activate imbalance, incoherence, injustice, dependence and irresponsibility and open the doors to: pain, war, hatred, slavery and the uncontrollable manifestation of our "shadow" part. It is the "**Wrong version of ONESELF**" that inevitably leads us to "evil-a-die".

Examples:

A yin right-handed with yang-yang (yin/yang-yang) undertone: You operate with one hemisphere at a time.

The Best Version of Yourself is to express and live by and for your yin.

The Wrong version of oneself is to express and live by and for one's yang-yang.

A yang left-handed with yin-yin (yang-yin-yin) undertone: You work with both hemispheres at the same time.

The Best Version of Yourself is to express and live by and for yang-yin-yin.

The Wrong version of oneself is to express and live by and for one's yin-yin.

The mechanism of tilting and amplification of a neurological hemisphere applies to the majority of Neuro-sociological Profiles.

The direction and power of our life course depends on our Neuro-sociological Profile. By choosing the option of **THE BEST VERSION OF OURSELVES**, we offer ourselves the maximum potential that our life will be filled with the countless gifts of "heaven".

By letting ourselves be caught up in **The Bad Version of OURSELVES**, we offer ourselves as fodder to the countless temptations of the grey areas that our archetypes put at our disposal... This is where it all gets complicated!

Who do I serve...?

THE LIGHT... ??? ... or The Shadow...?

The next capsule will be another way to discover his Basic Neuro-sociological Profile... To be continued.
